**FOR IMMEDIATE RELEASE**

## **McGhee Productivity Solutions Expands Corporate Productivity Services in Nigeria and Kenya**

**DENVER, CO, August 31, 2009** – McGhee Productivity Solutions (McGhee) continues to expand its reach in Nigeria and Kenya with clients NetHope and Skye Bank. Skye Bank PLC has evolved into one of the top financial institutions in Nigeria. To date Skye Bank operates out of over 250 branches and transaction centers across Nigeria serviced by over 6,000 professional Bankers and business experts. NetHope is a nonprofit IT consortium of international NGOs, including Save the Children and Wildlife Conservation Society, serving tens of millions of end beneficiaries each year in more than 150 countries.

Lanre Onasanya leads McGhee’s consulting engagements in South Africa. He is a certified consultant with vast experience in the financial services, logistics, and Information Technology fields. He is passionate about working with these two groups, among other clients, who are piloting the Take Back Your Life!<sup>TM</sup> (TBYL) program with goals of adopting the methodologies throughout their organizations. The TBYL program is an eight-hour, highly cost-effective solution that enables an intact work team to meet and collaboratively make decisions regarding shared challenges. The program addresses issues such as e-mail volume, message relevance and clarity, dealing with interruptions, meaningful meetings, and more.

ED Granger-Happ, a founder of NetHope and CIO of Save the Children, is an advocate of the McGhee methodologies and endorses the program throughout the NetHope organization. He stated in a video interview, “The Take Back Your Life!<sup>TM</sup> program has reduced the time and impact that e-mail has on our workday. It enables all sorts of other activities that are more personally strategic and organizationally strategic.”

###
